

Figure 1: Development of the quality of the SS13ACS dataset over time for (5)-anonymity with 0.0% suppression (higher is better)

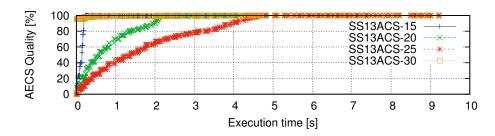

Figure 2: Development of the quality of the SS13ACS dataset over time for (5)-anonymity with 100.0% suppression (higher is better)

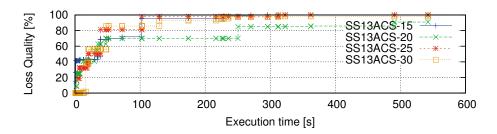

Figure 3: Development of the quality of the SS13ACS dataset over time for (5)-anonymity with 0.0% suppression (higher is better)

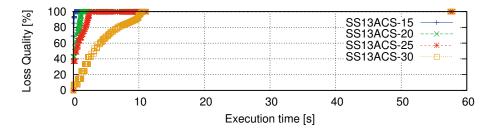

Figure 4: Development of the quality of the SS13ACS dataset over time for (5)-anonymity with 100.0% suppression (higher is better)

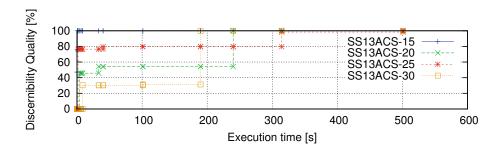

Figure 5: Development of the quality of the SS13ACS dataset over time for (5)-anonymity with 0.0% suppression (higher is better)

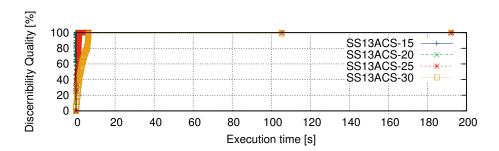

Figure 6: Development of the quality of the SS13ACS dataset over time for (5)-anonymity with 100.0% suppression (higher is better)

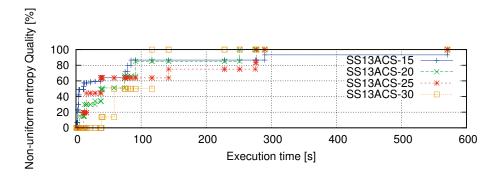

Figure 7: Development of the quality of the SS13ACS dataset over time for (5)-anonymity with 0.0% suppression (higher is better)

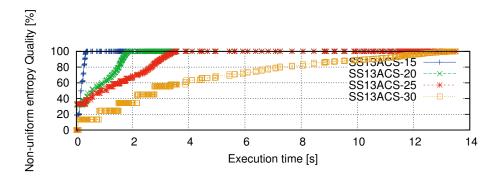

Figure 8: Development of the quality of the SS13ACS dataset over time for (5)-anonymity with 100.0% suppression (higher is better)

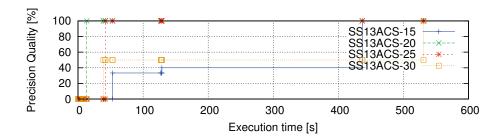

Figure 9: Development of the quality of the SS13ACS dataset over time for (5)-anonymity with 0.0% suppression (higher is better)

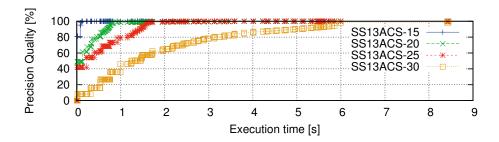

Figure 10: Development of the quality of the SS13ACS dataset over time for (5)-anonymity with 100.0% suppression (higher is better)

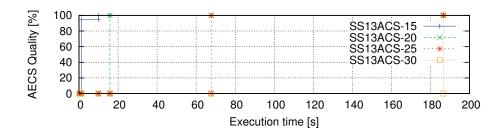

Figure 11: Development of the quality of the SS13ACS dataset over time for (0.01)-uniqueness with 0.0% suppression (higher is better)

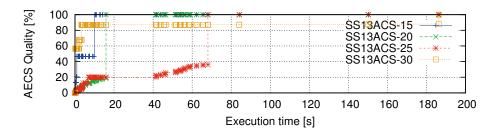

Figure 12: Development of the quality of the SS13ACS dataset over time for (0.01)-uniqueness with 100.0% suppression (higher is better)

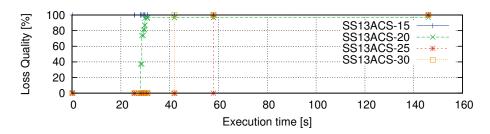

Figure 13: Development of the quality of the SS13ACS dataset over time for (0.01)-uniqueness with 0.0% suppression (higher is better)

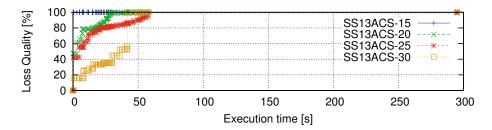

Figure 14: Development of the quality of the SS13ACS dataset over time for (0.01)-uniqueness with 100.0% suppression (higher is better)

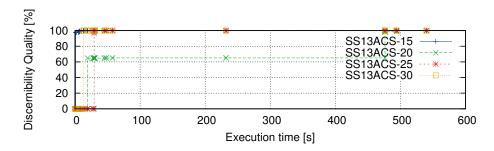

Figure 15: Development of the quality of the SS13ACS dataset over time for (0.01)-uniqueness with 0.0% suppression (higher is better)

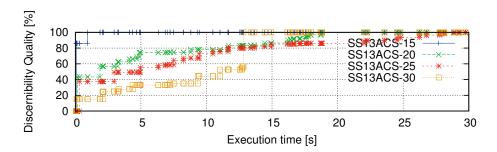

Figure 16: Development of the quality of the SS13ACS dataset over time for (0.01)-uniqueness with 100.0% suppression (higher is better)

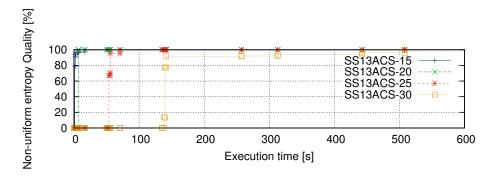

Figure 17: Development of the quality of the SS13ACS dataset over time for (0.01)-uniqueness with 0.0% suppression (higher is better)

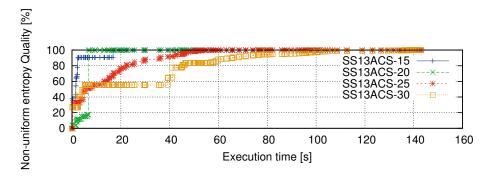

Figure 18: Development of the quality of the SS13ACS dataset over time for (0.01)-uniqueness with 100.0% suppression (higher is better)

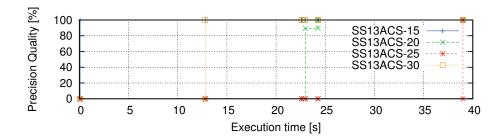

Figure 19: Development of the quality of the SS13ACS dataset over time for (0.01)-uniqueness with 0.0% suppression (higher is better)

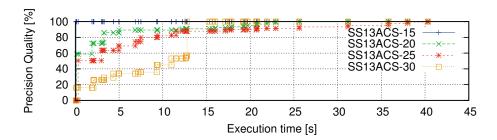

Figure 20: Development of the quality of the SS13ACS dataset over time for (0.01)-uniqueness with 100.0% suppression (higher is better)
